

Our Toxic World

The Path We Are On

*Environmental Toxicity and the **exponential rise** in the incidence of*

- *Autism*
- *Learning Disorders*
- *Adult ADD*
- *Childhood Addictions*
- *Childhood Cancer*
- *Anxiety*
- *Multiple Sclerosis*
- *Fibromyalgia*
- *Obesity*
- *Chronic Fatigue*
- *Depression*
- *Cancer*

“Old before Our time”

Your Bottom-line

"Environmental toxicity,
especially exposure to heavy metals, is the
number one barrier to Your health and longevity."

These toxins poison your
neurological,
immunological
and endocrine systems

Total Toxic load exceeds the body's ability to adapt
This is the basis of most of
the dreaded health conditions affecting us today.

Global Concern

Air, Water & Food

- North Americans and Canadians – 116 toxic chemicals – up from 27 in 2001
- Asia – 1M die/year from pollutants
- Sweden – increased risk of diabetes linked to exposure to PCB's, POP's and insecticides
- 1460 metric tons of airborne toxins travel the jet stream around the world

Canadian Concerns

Mining

In the US in 2001 alone, the mining industry dumped enough mercury nationally to fill a billion thermometers and arsenic in quantities that would **pollute all public drinking water supplies for 350 years.**

Canada has more than twice the number of mining facilities operating through vast regions of the country

All Illnesses are on the Up-swing

- The worldwide prevalence of asthma is rising by 50 per cent, on average, every decade.
- From the early 1970s to 2002, according to the Public Health Agency of Canada, the age-standardized incidence of testicular cancer was up 54 per cent, breast cancer 19 per cent, thyroid cancer 221 per cent, and non-Hodgkin's lymphoma (a cancer of the lymphatic system) 83 per cent.
- Learning disorders exploded and Autism rates rose from 1 in 25,000 children to 1 in 200 in the same period.

We're Surrounded

It's In the Air

- *Inhale 5000 gallons of air each day*
- *US facilities released 4.7 B lbs of toxins into the air – 72 M lbs are known carcinogens*
- *Chicago – 68 days when air was too unhealthy for children, elderly & the ill*
- *Fine particle pollutants (car exhaust & power plants), correlate with increase risk of dying from any cause*

We're Surrounded

It's In the Air

- *Coal fired power plants spew sulfates, nitrates and mercury into the air—linked to >20,000 premature deaths each year*
- *10% of women carry mercury concentrations high enough for fetal damage*
- *Manufacturing, transportation, electricity generation and other human activities are taking its toll on our health and environment*

Canadian Concerns

China sends Mercury in Air

An Import from Asia: Dirty Air

“Toxic Mercury from Asian power plants raise concerns for west coast.”

Seattle Times

Friday April 21, 2006

We have a situation where atmospheric mercury levels are expected to almost double every year thanks to US government selling obsolete technology to China for their “new” coming on-line coal burning electricity plants.

Technology, by the way, that we still USE in 430 similar plants here in USA

We're Surrounded

There Must Be Something In the Water

- 7 M illnesses & 1000 deaths each year in US from waterborne microbes
- Chlorinated chemicals in drinking water linked to increased risk of breast cancer
- Cyanobacterial toxins linked to illness and disease worldwide
- Sewage treatment plant workers at much higher risk of respiratory illness, skin rashes, headaches & body aches

We're Surrounded

Don't Eat That!

- Environmental toxins work their way into the food chain
- 47 states have advisories to limit intake of freshwater fish due to mercury contamination
- Chlorinated pesticides
 - *FDA finds DDE in 63% of foods surveyed*
 - *Strongly immunotoxic*
 - *Present in 84% of fruit & vegetables to schools*
- Herbicides in food linked to many cancers

Home Sweet Womb

Even Before We're Born

- Mother exposed = Fetus at risk
- Average newborn has 200 different industrial chemicals, pollutants & pesticides in blood
 - ***Carcinogens***
 - ***Toxic to brain & nervous system***
 - ***Abnormal development***
- Urban air pollution linked to chromosomal abnormalities in infants in NYC

Exposed To Toxic Elements

The Elements

- Environmental metals: Cadmium, Copper, Cobalt, Nickel, Lead, Mercury, Tin & Chromium linked to breast cancer
- Cadmium & Mercury found in breast milk of nursing mothers
- Cause of early puberty and altered mammary gland development in animals

Exposed To The Elements

Fluoride-Vaccinations-Radiation

Fluoride

- Fluorinated drinking water linked to Osteosarcoma & Hypothyroidism

Vaccinations

- Thimerosal is linked to autism in children, 5.5/1000 and increasing

Radiation

- Increased radiation exposure contributed to rising incidence of breast cancer between 1950 & 1991

The Price of Progress

Motor Vehicles

- *Gasoline & diesel fuels contain toxins*
- *Engine exhaust*
 - Benzene causes cancer
 - Particulate matter damages lung tissue, lowers resistance to infection & worsens chronic lung diseases
- *Exposure linked to lung cancer*
 - Urban areas
 - Industry workers at higher risk

No Place Like Home

What's Under the Sink?

- Cleaning products – ADHD & learning disorder
- Fabric dryer sheets
- Fragrances & air fresheners
- Indoor air contamination 1000 times greater than outdoors

Teflon (C8)

- Non-stick cookware, water-proof clothing, furniture & food wrappers
- Linked to cancers & toxic gas emission

No Place Like Home

If The Walls Could Talk

- Carpet
- Radon
- Building materials
- Mold
- Tobacco smoke
- Faulty appliances

70% of newly decorated homes had unsafe levels of Benzene pollutants

Common Sources of Heavy Metal Poisoning

Arsenic is commonly found in wood used for outdoor furniture and decking

Prevention is the ONLY answer

The human body was not designed to handle the levels of heavy metal toxicity found today in virtually every citizen of industrialized nations.

❖ 5 Steps for All Natural Prevention:

- ❖ **Help the body to cleanse from heavy metals.** Once the heavy metals are removed the immune system can better cleanse remaining elements of toxicity.
Recommended Product: *"All Natural Zeolite"* (Natural Cellular Defense – NCD)
- ❖ **Drink only clean, purified water** with natural mineral content.
- ❖ **Use proven, safe air purification** in your home, office, and your car.
- ❖ **Eat organic whenever possible.** Organic raw whole foods provide the body maximum nutrition without toxic elements common in processed foods.
- ❖ **Replace household chemicals.** Household products such as cleaners, sprays, pesticides, and even body care products such as shampoo, soaps, make-up, and deodorant contain harmful man-made chemicals. If you wouldn't swallow it, you shouldn't put it on your skin or spray it in the air.
